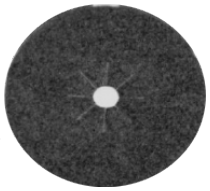
EDGER DISCS

Developed Specifically for the Wood Flooring Industry

SIC



7" EDGER DISCS (PAPER) 100/BOX*

SIC Silicon Carbide Paper (Black) is the sharpest and fastest cut. **"F" Weight Paper Backing - Not "E" Weight** used by other manufacturers. **Heavier weight paper Lasts Longer, Less Tear Out and Better Grit Retention.** Fast cutting and leaves a great finish! Brittle mineral fractures easily when loaded creating new sharp cutting edges. Best pricing in the industry.

"F" Weight Paper
Lasts Longer, Less Tear Out and Better Grit Retention!

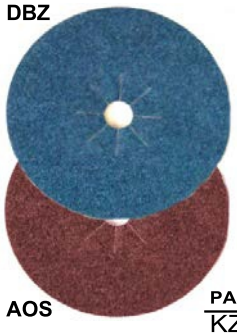
* 50 PER BOX

7" XTREME EDGER DISCS (CLOTH) 100/BOX

DBZ



AOS

DBZ DiamondBack™ Zirconium (Blue) is an extremely hard synthetic mineral lasting 10 times longer than a standard paper disc. Zirconium is the lowest cost sandpaper to use per square foot and tough enough to sand through nail stick ups.

AOS Aluminum Oxide (Red) will last 5 times longer than a standard paper disc and although it's not as sharp or doesn't fracture like Silicon Carbide, it will maintain a steady cut throughout the job providing a good cut. Aluminum Oxide is the most economical mineral. Heavy Duty Cloth/Double Resin Backing insures longer lasting disc and costs about the same as paper.

PART#			(CLOTH)	12*	24	36	40	50	60	80	100	120

7" HOOK & LOOP EDGER DISC (PAPER, CLOTH & FILM) 100/BOX

STOP WASTING TIME! No more bolting on edger paper! No more having to find a wrench! No more stripped or stuck bolts! Make the HOOK & LOOP CONVERSION PAD the last thing you bolt to your edger! Paper changes become a breeze because now your edger will accept any hook and loop type paper. Simply zip off old paper and apply new. It's that easy. **KZ197-700 $9.00**

KZ197-700
$9.00

HOOK & LOOP

Silicon Carbide Paper Hook & Loop Paper (Black) (KZ234-GRIT) has all the advantages of above plus quick change installation and replacement. **We use only "F" weight paper (not "E" weight used by the competition)** which means our paper lasts longer, has less tear out and better grit retention.

Xtreme Duty Hook & Loop Discs (KZ118-GRIT) are made with a cloth/double resin backing for extreme sanding jobs, like plywood joints or where there is a possibility of hidden nails, and are extremely durable and less likely to tear. Lasts 10 times longer than standard paper with fewer paper changes. Quick change hook & loop design.

Film Back Hook & Loop Discs (KZ317-GRIT) may be our economy line in film back abrasives but is also a tough performer and perfect for edgers and countertops. Quick change hook & loop design. Film back gives a very fine finish due to the smoothness of the backing.
