

PREDATOR's 100's of FLOOR PREP Tools

The **PREDATOR** is our most versatile tool for surface prep and polishing. 4 Rotating Heads are utilized for Floor Prep, Polishing, and Flattening floors. Or, 4 Stationary Heads are utilized for aggressive Grinding, Scraping and Scarifying. The Rotating Heads counter-rotate at 600-1200 RPM and use the same tools used by the **SATELLITE**. The Stationary Heads use aggressive tools that install quickly using the Magna-Plate system.

- Best Tool for Surface Prep & Polish
- Aggressive Grinding for Fixed Heads
- Flattening Floor Rotating Heads
- Fine Polish with Rotating Heads
- Floor Prep Polishing with Rotating Heads
- Aggressive Scraping/Scarifying
- CSP Finish 2-3

Shown with 8 Different tools.
For illustration only - rotating and stationary tools
CANNOT be used simultaneously.

A Stationary Heads same as the Scrapeaway

- Aggressive
- Scraping
 - Scarifying
 - Grinding
 - Leveling

OR

B Rotating Heads same as the SATELLITE

- Fine Finish
- Shredding
- Polishing
- Sanding
- Cleaning

A MAGNA PLATE Magna Plate

The Magna Plate system uses polar magnets to hold the tools to the base, making for quick installation & quick removal. 100's of Grinding, Scraping, Scarifying and Polishing tools with Trapezoids and Discs.

Tools Attach & Remove Easily - Snap on Magna Plate

B HIGH SPEED ROTATION HEADS

use over 100 tools, the same tools the **SATELLITE** uses. 6 dual directional orbital action discs offer superior cleaning, stripping, grinding and scarifying. Discs rotate 600 RPM to 1200 RPM. Heads float effortlessly following the contour of the floor.

Attach Easily - Velcro & Direct Attach To Rotating Heads.
