

7" EDGER DISCS

PAPER 50-100/BOX

- **SIC Silicon Carbide Paper (Black)** is the sharpest and fastest cut.
- We use only **"F" Weight Paper Backing - Not "E" Weight Paper** used by other budget manufacturers.
- **Heavier weight paper lasts 5 times longer than standard sandpaper, for less tear out and better grit retention.**
- Fast cutting Silicon Carbide mineral leaves a great finish!
- Brittle mineral fractures easily when loaded creating new sharp cutting edges.
- SIC is widely used on wood floors and provides consistency, value and performance.
- Best pricing in the industry.

"F" Weight Paper
Lasts Longer,
Less Tear Out
and Better Grit
Retention!

7" HOOK & LOOP EDGER DISC PAPER/CLOTH 100/BOX

STOP WASTING TIME! No more bolting on edger paper! No more having to find a wrench! No more stripped or stuck bolts! Make the HOOK & LOOP CONVERSION PAD the last thing you bolt to your edger! Paper changes become a breeze because now your edger will accept any hook & loop type paper. Simply zip off old paper and apply new. It's that easy!

VELCRO CONVERSION PAD KZ197-700

- Silicon Carbide Paper Hook & Loop Paper (Black) (**KZ234-GRIT**) has all the advantages of above plus quick change installation and replacement.
- We use only **"F" weight paper (not "E" weight used by the competition)** which means our paper lasts longer, has less tear out and better grit retention.
- Xtreme Duty Hook & Loop Discs (**KZ118-GRIT**) are made with a cloth/double resin backing for extreme sanding jobs, like plywood joints or where there is a possibility of hidden nails, and are extremely durable and less likely to tear.
- Lasts 10 times longer than standard paper with fewer paper changes. Quick change hook & loop design.

7" XTREME EDGER DISCS CLOTH 50-100/BOX

- **DBZ DiamondBack™ Zirconium (Blue)** is an extremely hard synthetic mineral lasting 10 times longer than a standard paper disc.
- Zirconium is the lowest cost sandpaper to use per square foot and tough enough to sand through nails.
- **AOS Aluminum Oxide (Red)** will last 5 times longer than standard paper discs and although it's not as sharp and doesn't fracture like Silicon Carbide, it will maintain a steady cut throughout the job providing a good quality finish.
- Aluminum Oxide is the most economical mineral.
- Heavy Duty Cloth/Double Resin Backing insures longer lasting discs and costs about the same as paper.
