- Add a High Gloss Maintenance Step, 3¢/sq. ft.

BASIC 3+1 STEP-BY-STEP

Step 1: (200 Grit Helix Diamond Discs)

Place 4 **BASIC 3+1** Helix Diamond Polishing Discs on a Reflexon Hogshair Pad at 12, 3, 6, and 9 o'clock (see photo).

With the pad under the buffer, begin to polish, moving East to West, overlapping 50% each direction, complete a designated area, then repeat moving North to South, overlapping 100% to ensure complete coverage.

Step 1B: Clean area thoroughly with mop or vacuum. You must **remove all** contaminants (spent grits, concrete, stone, etc). Rinse and clean again to just to be sure.

Step 2: (400 Grit Helix Diamond Discs) Remove Step 1 Helix Diamond Discs, clean Reflexon Hogshair pads, apply step 2 discs and repeat procedure.

Step 2B: Repeat step 1B.

Step 3: (800 Grit Helix Diamond Discs) Remove Step 2 Helix Diamond Discs, clean Reflexon Hogshair pads, apply step 3 discs and repeat procedure.

Step 3B: Repeat step 1B.

Step 3C: Rinse and buff with Reflexon 303 pads.

NOTE: At this point, you will have a well honed floor with a semi gloss finish.

You may stop now or continue with 2 coats of Rino Hide for a High Gloss look.

Step +1: Apply 1-2 coats of **RINO HIDE** to floor with T-Bar, mop or roller. Allow 2-3 hours before 2nd coat and 12 hours before cured, then buff the finish with Reflexon 303 High Shine pads.

KA805-Grit

Grits: 100, 200, 400, 800, 1500

Helix Diamond Disc

- Double Ring Copper Bond Exterior with Resin Bond Diamond Interior
- Quick, smooth cuts last longer than resin discs
- Best Polishing Disc for Straight or Beveled Floors
- Will not leave waves or ripples
- Brings out the natural color of the floor
- Rigid form & aggressiveness of the disc means great results fast!
