

Waffle Discs

the **BEST** Price & Finish

#1 Selling Abrasive for Satellite / Multiheads

Innovative Design!

Waffle Ears fold up to glide over overwood, end joints, & wind shakes without ripping or tearing, leaving a Flat, Smooth, & Evenly Sanded Floor.

Cloth backing on Waffle Discs outlasts paper backing 9-1

Cuts Out Chatter and Edger Marks w/ 80 Grit

Sands to a Piano Top Finish

Will not remove Spring Wood like over the counter discs

Re-finish Scratched, Distressed, or Pre Finished Floors

Waffle ears "ride over-wood" and Sands Flat Overwood, End Joints and Wind Shakes

No Swirl Marks or Halos

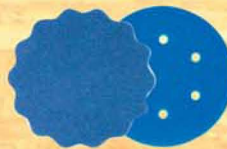

Great for Random Orbitals!

Engineered for Parquet, Inlays, and Patterned Floors

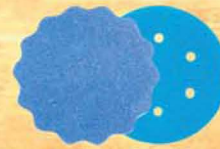

SIC Premium Cloth

Fine Finish Sanding Leaves best finish due to "self sharpening". Mineral fractures easily and stays sharp. (Black) Hook & Loop. Lasts 9-1 overwood Paper Discs. Recommended for Dark or Stained Floors. Great for final sanding use 120, 150, or 180 grit then finish with 220 grit for FINAL Finish (60,80,100,120,150,180,220 Grit)

Zirconium Tough Cloth

Toughest Longest Lasting Mineral and the Most Aggressive Zirconium Discs Outlasts Paper Discs 11-1. (Blue) Hook & Loop. Recommended Use: 24 Grit to 60 Grit. First cut on larger jobs or when sanding new installation of hard-wood with a hardness of 1300 or more. Finish with SIC (24,36,40,60,80,100,120 Grit)

Ultra Blue Economical Film Back

Many times better than paper back discs due to the film backing. Perfect product for random orbital sanders. Resin Glue adheres the mineral to film better than paper. Outlasts paper discs 3-1. Hook & Loop. (60,80,100,120,150,180,220 Grit)

4.5"
