

# PAD DRIVERS

## Deluxe Pad Drivers

Velcro-style hooks hold pads of every type. Molded with a 1-1/2" riser. Use on 175 and 300 rpm machines. Includes clutch plate.

**D01(Size)** 12", 14", 15", 16", 17", 18", 19", 20", 21"

Clutch Plates  
For All Brushes & Pad Drivers

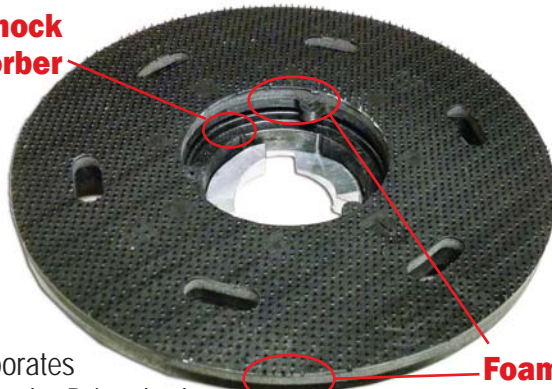

**KA408-NP9200M** - Metal  
**KA408-NP9200** - Break Away

## SOFT DRIVE HS

Designed specifically for the Hardwood Professional.

Soft Drive High Speed incorporates a 1/2" thick foam pad between the Driver body and the harpoon type pad holder. The 1/2" foam pad absorbs vibration from the buffer that would transfer to the floor leaving skips, cuts, chatter, or scratches on the floor. The Soft Drive HS head has a rubber shock absorber built under the clutch plate, delivering an even smoother floor. Soft Drive HS works at up to 1000 rpm for burnishing stain, hardwood finish, oils and waxes. Heavy Duty Metal clutch plate.

**Shock Absorber**

**Foam Rubber Padding**

**D09(Size)** 16", 17", 20"

## Weighted Pad Driver 40 lb./60 lb.

Need a more aggressive floor machine? Try the weighted pad driver for a faster, smoother cut.

**KA1400** 16" 40 lbs. **KA1400-20** 20" 60 lbs.
