

# Solution Feed System

A direct water hook up mounted on your buffer handle eliminates the solution tank & the need for refills. Helps in calculating the weight to abrasive ratio. **CM675**

# Splash Ring

Mounts on the outside of the machine apron to control scrub water splashes. Adjustable size. **KAM800-100**

# Solution Tank 4g

HDPE tank mounts on buffer handle. Dispenses solutions through fitting in apron.

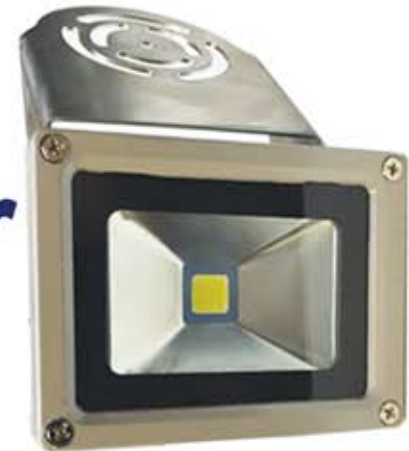

**CM681**

# Buffer Light

1500 Watt high output LED light mounts on machine. No heat generated from light. Swivel mount, Tough polycarbonate face resists cracks and scratches.

**KA550**
