VELCRO HOOK & LOOP EDGER ABRASIVE DISC

Hook and Loop Edger Discs and Conversion Pads

- No more bolting discs to the edger. Paper change is easy.
- Your edger will accept any hook and loop paper

Silicon Carbide Paper SIC (black)

- “F” weight for longer lasting paper, less tear out, and better grit retention than industry common “E” weight

Xtreme Duty Hook and Loop

- Discs are made with a cloth / double resin backing for extreme sanding jobs, like plywood joints or where there may be hidden nails.
- Durable and less likely to tear.
- 10 times longer than standard papers

Back Hook & Loop Discs

- Our economy line but with tough performing.
- Popular with sanding of counter tops
- Film back gives fine finish with the smoothness of the backing

Silicon Carbide Paper Discs

- **SIC Silicon Carbide Paper** (Black) is the sharpest
- Fastest cut.
- Heavyweight paper backing is standard throughout the industry
- Tear and load resistant
- Cuts fast with a good finish
- Best pricing in the industry
- Brittle mineral fractures easily when loaded, creating a new sharp edge. Cuts fast, starts and stays sharp
- **12-36** grit removes old gummy finishes, waxes, paint and fractures at low pressure
- **40-60** grit levels and removes deep scratches
- **80-120** grit for fine finishes
- Best for fine finish, dark stain, pine and very hard species.
- Widely used on wood floors and fine wood throughout the furniture industry

DiamondBack Xtreme Disc

- **DBZ DiamondBack** (Blue) for Heavy Duty Concrete
- Cloth backed Zirconium single side disc
- 7" diameter with center hold
- Use for heavy duty concrete preparation
- Use for taking the cup out of wood floors prior to sanding.
Can be used wet with adhesive removers
- Lasts 10 times longer than a standard paper disc
- DBZ Zirconium is the lowest cost sandpaper to use per square foot and tough enough to sand through nail stick-ups
- 100 per box
- Available in grits 24-120

Edging – 2 Cut Steps

1st Cut – Remove over wood, varnish

- Trim in outside borders
- Use 50/60 grit on new floors
- Use 36 grit on old varnished floors.
- Move fast to keep your disc from getting gummy
- Use DBZ Zirconium disc – outlasts 10 SIC paper discs

2nd Cut – Remove last scratches

- If 1st Cut was with 50/60 grit, use 80-100 grit paper to finish the job
- If 1st Cut was 36 grit use 50-60 grit, then finish the job with another cut of 80/100 grit
